- Urdu (Native)

2022 - 2024

<https://www.dzinemedia.com> | Layalpur Galleria (FSD)

**php/Laravel**

Experienced PHP/Laravel Developer specializing in building web applications for tool-based platforms like Notepad, Paraphrase, and PDF Merge. Skilled in developing scalable solutions, integrating third-party APIs, Linux Commands controls, and optimizing performance. Strong expertise in backend development, database management, and version control with Git/GitHub. Worked on multiple production websites including **mergepdf.io**, **pizzerian.pk**, and **essaypandas.com**, delivering scalable, high-performance web solutions using Laravel and modern web technologies.

2020 - 2022 <https://ewdtech.com> | Meezan Tower Faislabad

**php/Laravel**

Experienced PHP/Laravel Developer specializing in building web applications for client-based Projects like Elaine.com Skilled in developing scalable solutions, integrating third-party APIs, and optimizing performance. Strong expertise in backend development, database management, and version control with Git/GitHub.

---

## PROJECTS

---

**MERN STACK**

<https://app.fixmate.com/>

Lead MERN Stack Developer at FixMate, a platform for cleaning and maintenance services. Responsible for architecting and developing scalable web solutions, integrating APIs, and optimizing performance. Led the development team, ensuring clean code, efficient workflows, and seamless user experience.

**PHP/Laravel**

<https://heduguide.ro/>

Built a Laravel-based platform for student eligibility evaluation and admission process management.

## **MERN STACK**

<https://www.maybetech.com>

Experienced MERN Stack Developer at LevelUp Marketplace, contributing to MaybeTech, an AI-powered platform like ChatGPT for the Go High Level Marketplace (web & app). Skilled in developing AI-driven solutions, API integrations, and optimizing performance for scalable applications. Strong expertise in backend development, database management, and version control with Git/GitHub.

## **MERN STACK**

<https://fixmate.co.uk/>

Lead MERN Stack Developer at FixMate, a platform for cleaning and maintenance services. Responsible for architecting and developing scalable web solutions, integrating APIs, and optimizing performance. Led the development team, ensuring clean code, efficient workflows, and seamless user experience.

## **PHP/Laravel**

<https://www.mergepdf.io/>

As a Laravel developer, overseeing the development of a platform integrating Linux-based commands for advanced merging functionality with a seamless frontend design. Responsible for system architecture, API integration, and optimizing performance. Ensured smooth communication between backend processes and user interface for an efficient and scalable solution.

## **Open to Discuss More Projects**

I have worked on various other projects in my past experience and am open to discussing them in more detail. Feel free to reach out!

## **Remote base Experience**

Worked remotely for CRM-based companies (AnotherCRM), including a Texas-based firm and FixMate (UK). Led the development of scalable web applications, integrated APIs, and optimized performance. Managed backend and frontend architecture while collaborating with distributed teams using Git/GitHub.

**Looking Forward to the Next Opportunity** I am excited about the opportunity to bring my expertise and passion for development to your team. Whether working collaboratively as part of a team or independently on standalone projects, I have a proven track record of delivering high-quality, scalable solutions. I am eager to contribute to your success and help drive impactful results. Let's work together to achieve great things!
